

5th Grade Microwilderness Expedition Log

Date: _____ Names: _____

| Feeder Group | What they feed on or eat |
|--|---|
| Herbivores  | Eat live plants |
| Carnivores  | Eat live animals |
| Pollinators  | Eat pollen and nectar from flowers |
| Scavengers  | Eat dead plants and dead animals |
| Decomposers  | Eat waste and turn it into nutrients for plants |

1. While collecting, take a moment to make observations about three of the specimens you find:

| Insect Name | Location/Conditions: (i.e. under mulberry tree, in the shade) | Physical Adaptations: Color, type of wings, eyes, | Feeder Group |
|-------------|--|--|--------------|
| 1. | | | |

Draw Insect 1

| Insect Name | Location | Physical Adaptations | Feeder Group |
|-------------|----------|----------------------|--------------|
| 2. | | | |

Draw Insect 2

| Insect Name | Location | Physical Adaptations | Feeder Group |
|-------------|----------|----------------------|--------------|
| 3. | | | |

Draw Insect 3

How do your insects affect the rest of their environment? (Think of at least 2 ways) _____
